

Today I decided to put extra time in the lambo....
I almost finished Dyno mating the entire interior!!!
Looks so good. The interior is starting to take shape.
I already did 1 of the door frames. But this is still a Test Fit. I'm not sure if this will be the same way it will look when I'm finished. For now it seems about right. But not sure yet.
I still need the window to do some more repairs to get it correct.
I finally get my Tires this coming Friday! I'm so glad I cant wait to see what its gonna look like when I put the frame of the table and on the ground...I'm gonna be like WHOA!!!
I'll send you pictures! Ha ha aaa
You have a Great week.

-Felipe

The frame is constructed for the doors and will be fibreglassed in to keep things in place
