

## Fitting the AGP Glass for Roll up Glass

I got the door glass in. This is the quarter panel glass

I really like the glass...looks really good. And I also like the bottom edges and the cut they made near the rear bottom of glass. That cut is so that when the window is all the way down, it doesn't hit the inner door. I won't be able to test fit until Sunday. I will send you follow up pictures soon!
