

Fitting the Driver's Side Door Glass

The door glass is at the stage of fabricating the guides and getting the registers setup for install.

Drivers side glass in the up position.

Drivers side glass in the down position.

Felipe is a perfectionist and we know he will do nothing short of that standard. With all the years of experience he has, and the situations he has accomplished in the past, he was the perfect individual to do one of the Diabolic builds. With Felipe, 'Good enough' is never good enough. He always goes the 2nd mile in design and production.
