

I left the house this morning at 4am drove to Fort Smith, AR. Spent about 40min gathering all the parts I needed...then headed back to Texas. Round trip, and dropping off the engine at my shop, was 12hours...not bad at all. It is a 2007 VQ35HR Nissan 350z 3.5 L V6. I will take better pictures when I come back to the shop on Monday. I dropped it off and on my way to sleep. Have a great weekend,
