

I'm using original Lamborghini Paint. We only did a test piece using white base. I will try the other side using gold base. And see which looks better in the sun. White base

Pearl orange lambo paint Dupont chroma base. code: LOE2 Arancio Borealis

Only 1 hand of urethane clear. So that when we paint entire car it's easier to remove.

This was almost \$100 in materials. All just to get a better idea of the color! Ouch! All that matters is I like it!!! Now we have to re-sand it, and get the body ready for paint.
