

Rolling Chassis Completes Finish of Designing

A little snow in the air this morning. I knew it was coming but man does it get cold also. Attached are my chassis pics. No room for the golf clubs etc. but all in all I don't think I will care once I get some paint on the body and go cruising. Have a good Christmas season as we also remember the "Reason" for the season. God bless you and your family.

Jim Cline

Pic #52 Frontal view of my chassis

Pic #53 Side view showing roll cage etc.

Pic #54 Another side view

Pic #55 Another side View (Note the Cadillac Engine mounted)

Pic #56 Rear View of chassis w/ Northstar installed with the 4T80 trans.
