

Picture 59 Shows the additional strut in front of the LH rear strut and the connector strut connecting the side rocker rectangular tubing to the rear round tubing.

Picture 60 Shows a corner shot of the gusset at the rear strut top hat.

Picture 61 Shows the "X" brace across the rear.

Picture 62 Shows my battery box framework.

Picture 63 Shows the battery installed in front of the RH rear tire. Access will be through a panel in the wheel well housing.
