

Partial Turnkey Purchase

By Reed H.

Finally the car arrived.....I wouldn't recommend this guy (assembler of turnkey) to anyone, doesn't return phone calls, or emails. I knew the car needed paint, wheels and tires, and a few odds and ends but it needs some electrical, shifter cables, vacuum lines are all disconnected, etc. Just more work then he said. Oh well, I needed a project. Oh, the shipping company was **Jorden Transervice** 630-754-8090. I booked it through **Able Auto Transport** but you may get a better deal direct.

Reed

Note the clean lines of fit for the panels

Corvette Taillights used

Radiator vent mesh installed

Hyundi mirror installed

Wire mesh for vents installed.
